

ABDULLAH SAJJAD

Junior Full-Stack Developer | MERN Stack | React.js | Next.js | Node.js

+92 325 4412292 • abdullahmug2332@gmail.com • Lahore, Pakistan • <https://abdullahsajjad.vercel.app> • <https://github.com/abdullahmug2332> • <https://linkedin.com/in/abdullah-sajjad-8881b9289>

PROFESSIONAL SUMMARY

Results-driven Junior Full-Stack Developer with 1+ year of professional experience building modern, scalable web applications for real-world clients using the MERN stack, Next.js, and TypeScript. Proven track record of delivering production-ready projects including CMS platforms, real estate management systems, booking applications, HR tools, and e-commerce websites. Proficient in developing RESTful APIs with JWT authentication, managing relational (MySQL) and non-relational (MongoDB) databases, and deploying responsive, SEO-optimized frontends. Committed to clean code, UI/UX best practices, and continuous learning in an agile software house environment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js (App Router), HTML5, CSS3, Tailwind CSS, Bootstrap, Redux Toolkit

Backend: Node.js, Express.js, REST API Development, JWT Authentication, Middleware Design

Databases: MySQL, MongoDB

CMS & Platforms: Custom CMS Development, WordPress, Elementor, WooCommerce

Tools & DevOps: Git, GitHub, Postman, npm/yarn, Vercel (Deployment), VS Code

Concepts: Responsive Design, SEO Best Practices, MVC Architecture, Code Reviews, API Integration

WORK EXPERIENCE

Junior Full-Stack Developer | IBS Technologies (IBS-TEC)

April 2025 – Present • Lahore, Pakistan

- Design and develop scalable, production-ready full-stack web applications using Next.js, React.js, TypeScript, Node.js, and Express.js for business clients across multiple domains.
- Build and maintain custom CMS platforms enabling real-time content management — including blogs, image galleries, tour bookings, card layouts, and admin dashboards reducing client content update time significantly.
- Develop secure RESTful APIs with JWT-based authentication and role-based access control (RBAC) for admin and user portals.
- Design and optimize relational (MySQL) and non-relational (MongoDB) database schemas for real-world business use cases including real estate, HR, and e-commerce.
- Contribute across 5+ project types: Business Portfolios, Real Estate platforms, Booking systems, E-commerce solutions, and WooCommerce-based stores.
- Support WordPress development with Elementor and WooCommerce, delivering editable, SEO-optimized, client-friendly websites.
- Collaborate with cross-functional teams using Git/GitHub version control, following clean code principles and modern development best practices.

Website Developer (Internship) | IBS Technologies (IBS-TEC)

Apr 2025 – Jul 2025 • Lahore, Pakistan

- Collaborated with senior engineers to build scalable, production-ready web applications across diverse client domains.
- Developed responsive front-end interfaces using HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript, React.js, Next.js, and Redux Toolkit.
- Built backend APIs using Node.js and Express.js with JWT authentication and secure data handling via MySQL.
- Contributed to performance optimization, accessibility improvements, and cross-browser compatibility fixes.
- Assisted in WordPress-based client website development using Elementor, delivering modern, mobile-first layouts.
- Gained hands-on experience with Postman for API testing and Git/GitHub for version control and team collaboration.

KEY PROJECTS

GotYourRide — Ride Booking Platform — Next.js, Node.js, Express.js, MySQL, JWT, Tailwind CSS 2025

- Built a full-stack ride booking web application with a customer-facing UI and a secure admin dashboard for managing rides, users, and bookings in real time.
- Implemented JWT-based authentication, booking workflows, and dynamic route management; deployed on Vercel with optimized loading performance.

Abdullah Real Estate — Property Management Platform — React.js, Node.js, Express.js, MySQL, JWT 2025

- Developed a MERN-based real estate platform with a public-facing property portfolio and a full admin panel to add, edit, and delete listings with secure login.
- Designed a normalized MySQL schema for property data, implemented image management, and ensured responsive layout across all devices.

AllSpark Technologies — Corporate Website with CMS — Next.js, React.js, Express.js, MySQL, Tailwind CSS 2025

- Delivered a business portfolio website with a custom-built CMS backend allowing the client to manage services, blogs, team members, and media without developer dependency.
- Integrated SEO metadata, Open Graph tags, and performance optimizations resulting in a fast-loading, search-engine-friendly production website.

AllThingsHR — HR Consulting Web Application — Next.js, React.js, Tailwind CSS 2025

- Built a modern, responsive HR consulting website with a mobile-first design, animated sections, and clean UI — showcasing HR services and team profiles for a corporate client.

Custom CMS Platforms (Multiple Clients) — Next.js, React.js, Express.js, MySQL 2024–2025

- Architected and delivered 5+ dynamic CMS systems across tour booking platforms, blogs, and business sites — enabling admins to manage all content through intuitive dashboards with role-based access.

Basic E-Commerce Website — React.js, Express.js, MySQL, JWT 2024

- Designed and developed a lightweight e-commerce site with product catalog management, user authentication, dynamic pages, and a clean UX flow suitable for small to medium businesses.

EDUCATION

Bachelor of Science in Computer Science	CGPA: 3.5 / 4.0
Virtual University of Pakistan	Jul 2024 – Present • Lahore
Intermediate in Commerce	Score: 76.8%
GCU / BISE Lahore	2021 – 2023 • Lahore
Matriculation in Computer Science	Score: 90.2%
Govt. City District / BISE Lahore	2019 – 2021 • Lahore

CERTIFICATIONS

- MERN Stack Development Bootcamp — Nexskill, Arfa Karim Tower, Lahore
- Introduction to Python & Problem Solving — Knowledge Stream, Township, Lahore
